

Big and little hunters

Big cats are wild animals. They live in forests and grasslands in Africa and Asia.

A big cat in Africa

Big cats are hunters. They hunt and eat other animals with their sharp teeth.

A lioness hunting a zebra

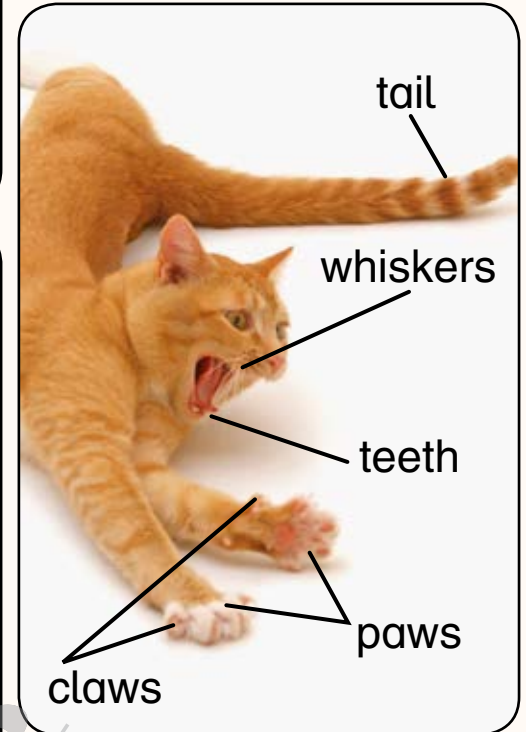

Little cats are pets

Little cats live in houses with people. They are pets.

People give them cat food, but house cats are hunters, too.

They hunt and eat birds, mice and fish with their sharp claws and teeth.
